

Compact 10 W

Scatole di comando compatte dotate di fissaggio orientabile, led di controllo e fusibile generale di protezione. Offrono una soluzione affidabile e conveniente laddove sono necessari ingombri ridotti.

Adatte per il comando di valvole di sezione.

***RI:** con valvole di sezione indipendenti.

****RD:** dove la valvola generale in OFF chiude automaticamente tutte le valvole di sezione..

Compact control boxes with adjustable mounting system, working led and main safety fuse. A reliable and convenient solution where a compact size box is needed.

Suitable for controlling section valves.

***RI:** with independent section valves.

****RD:** with section valves controlled by the main valve.

Компактные блоки управления, оснащенные регулируемым креплением, контрольным светодиодом и главным защитным плавким предохранителем. Представляют собой надежное и экономичное решение там, где необходимы компактные габариты. Пригодны для управления секционными клапанами.

***RI:** с независимыми секционными клапанами.
****RD:** при отключении главного клапана, автоматически отключаются все секционные клапаны.
